About us

Crowley Engineering is a trusted mechanical engineering contractor, renowned for exceptional workmanship, uncompromising safety, and dependable quality.

For over 52 years, we've delivered mission-critical solutions for some of the world's most respected companies—combining technical expertise with a proven track record of reliability.

What we offer

Our expert engineers and fabricators excel in mechanical design, manufacturing, and installation, delivering precise and effective solutions for every project. At Crowley Engineering, we combine technical expertise with a commitment to safety, quality, and efficiency.

As representatives of leading international organizations, we provide premium products and services not available locally, ensuring they are seamlessly integrated into our operations to deliver world-class results.

Turnkey Engineering Projects

We handle your project from initial concept all the way through to final installation.

Our dedicated team of professionals is ready to support you with any specific needs you may have.

Bulk Material Handling Systems

As the foundation of our business, we are recognized as a leader in this field.

We also proudly represent other global leaders in the agricultural sector.

Art Sculpture Fabrication – Bringing Creative Visions to Life

Large-scale public art and architectural sculptures, precision engineered.

In partnership with artists and architects, we manufacture sculptures in stainless steel and other materials. Our technical expertise ensures every piece is structurally sound, weather-resistant, and beautifully finished.

Mechanical Design

Our mechanical engineers use the latest mechanical design, drafting and simulation software.

Rigging & Plant Maintenance

Our experienced team ensures the safe, precise handling of complex equipment and proactive plant maintenance, with a focus on minimizing downtime and optimizing operational efficiency.

General Engineering & Structural Steel Fabrication

Our 3,000 sq. ft. fabrication facility specializes in modular platforms, heavy equipment, and special-purpose structures.

With advanced technology and expert craftsmanship, we ensure high-quality, efficient project delivery tailored to your needs.

Silo & Vessel Manufacturing – CE Certified Steel Storage Solutions

Our custom silos and vessels are manufactured to meet the highest safety standards. Every unit is CE marked and pressure tested, with optional on-site installation by our skilled engineers. We specialise in grain silos, liquid storage tanks, and industrial processing vessels.
